

Within this presentation, we make "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to expectations concerning matters that are not historical facts. Such forward-looking statements may be identified by words such as "anticipates," "believes," "can," "continue," "could," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "remain," "should", "strategy" or "will" or the negative of these terms or other comparable terminology. In this presentation, such statements include statements regarding our expected recovery and growth and operational plans. These statements and all phases of the Company's operations are subject to known and unknown risks, uncertainties and other factors that could cause our actual results, levels of activity, performance or achievements and those of our industry to differ materially from those expressed or implied by these forward-looking statements.

Risks and uncertainties include, but are not limited to, the following: risks related to an economic downturn or deterioration of general macroeconomic conditions, potential adverse effects to our and our clients' liquidity and financial performances from bank failures or other events affecting financial institutions, the highly competitive nature of the market for professional services, risks related to the loss of a significant number of our consultants, or an inability to attract and retain new consultants, the possible impact on our business from the loss of the services of one or more key members of our senior management or key sales professionals, risks related to potential significant increases in wages or payroll-related costs, our ability to secure new projects from clients, our ability to achieve or maintain a suitable pay/bill ratio, our ability to compete effectively in the competitive bidding process, risks related to unfavorable provisions in our contracts which may permit our clients to, among other things, terminate the contracts partially or completely at any time prior to completion, our ability to realize the level of benefit that we expect from our restructuring initiatives, risks that our recent digital expansion and technology transformation efforts may not be successful, our ability to build an efficient support structure as our business continues to grow and transform, our ability to grow our business, manage our growth or sustain our current business, our ability to serve clients internationally, additional operational challenges from our international activities, possible disruption of our business from our past and future acquisitions, the possibility that our recent rebranding efforts may not be successful, our potential inability to adequately protect our intellectual property rights, risks that our computer hardware and software and telecommunications systems are damaged, breached or interrupted, risks related to our use of AI and machine learning in our business, risks related to the failure to comply with data privacy laws and regulations and the adverse effect it may have on our reputation, results of operations or financial condition, our ability to comply with governmental, regulatory and legal requirements and company policies, the possible legal liability for damages resulting from the performance of projects by our consultants or for our clients' mistreatment of our personnel, risks arising from changes in applicable tax laws or adverse results in tax audits or interpretations, the possible adverse effect on our business model from the reclassification of our independent contractors by foreign tax and regulatory authorities, the possible difficulty for a third party to acquire us and resulting depression of our stock price, the operating and financial restrictions from our credit facility, risks related to the variable rate of interest in our credit facility, the possible impact of activist shareholders, the possibility that we are unable to or elect not to pay our quarterly dividend payment, and other factors and uncertainties as are identified in our most recent Annual Report on Form 10-K for the year ended May 31, 2025, and our other public filings made with the Securities and Exchange Commission (File No. 000-32113). Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business or operating results.

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

The Company does not intend, and undertakes no obligation, to update the forward-looking statements in this presentation to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, unless required by law to do so.

Ideal Partner for Transformation.

Business today is evolving in real time. Al is rewriting the rules of how work gets done. Transformation is constant, and as challenges grow more complex, expertise must flex, adapt, and deliver at speed.

RGP is a global professional services firm purpose-built for a new environment. With roots in Deloitte and 30 years of experience, we help enterprises move faster, operate smarter and scale more efficiently.

Built to Work How Enterprises Need Us

Investment Highlights.

At RGP, we've created a durable business with the right fundamentals. It's how we serve companies like Cisco Systems, Blackstone Group, Mattel and Entergy with speed, quality, and staying power. **And it's why investors trust us to outperform across market cycles:**

- Diversified across industries, regions & service lines
- Strong client retention & growing lifetime value
- Leveraging AI for digital transformation & global execution
- Focus on value-based pricing discipline & tech-enabled delivery and operations

Robust Global Platform

Our global, award-winning talent network and loyal client partnerships continue to create repeatable, scalable growth

Enhanced Financial Performance

Significant pricing upside through value-based pricing, delivery cost efficiency through blended agile and bench teams, and improving operating leverage through global technology transformation

Pristine Balance Sheet

Zero debt and \$86.1M in cash as of the end of FY25

Return of Capital

Ability to generate cash flow that supports opportunistic share repurchases and industry-leading dividend yield

A Model That Stands Apart.

Traditional consulting and staffing models weren't built for today's reality. RGP offers a model designed for today's business challenges. Here's how it works:

- Flexible by Design: Consulting, on-demand talent, and outsourced solutions
- Led by Senior Expertise: 73% of our consultants bring 16+ years of experience to the table
- Built to Scale Globally: Local presence + offshore execution = reach, speed, and efficiency

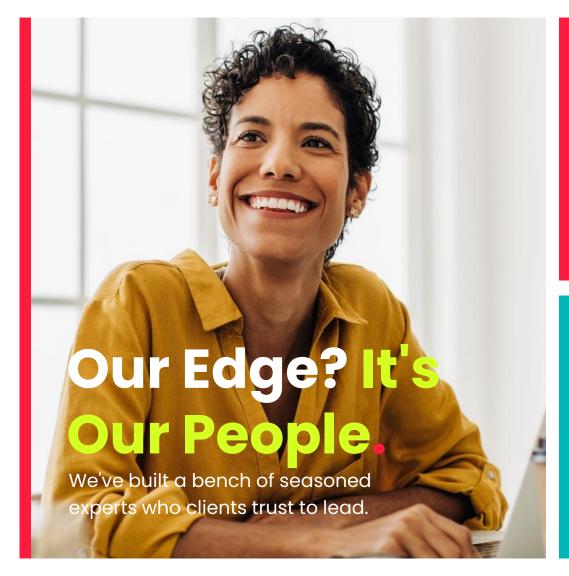

RGP's High-Impact Solutions.

Clients often come to us for one solution and stay for more. We might start with finance transformation, risk, or compliance, then grow into digital, operations, and beyond. That's how we build long-term client value, energized teams, and diversified revenue streams.

A Flexible Cost Model to Support Financial Agility.

Our variable cost structure helps us stay nimble by flexing expenses with revenue. This means we remain resilient through economic cycles, quickly responding to market shifts to protect operating margin. Flexible cost structure combined with significant upside for pricing leverage **positions us for long-term profitable growth.**

Enhanced Financial Performance

Our agile delivery team adjusts with revenue and reduces utilization risk, together with pricing upside position us for further gross margin expansion

Improving Cost Structure

Our flexible incentive compensation model drives performance, while our enhanced tech stack will drive efficiency and scale for profitable growth

EBITDA Margin Upside Opportunity

Our margin expands as our business mix evolves and we continue to realize the impact of operating efficiencies

Robust Free Cash Flow

Our Free Cash Flow allows for a balanced and opportunistic capital allocation strategy

Strategic Capital Allocation.

Growth Investments Capitalize on Compelling Opportunities

Global Delivery Centers: We build global delivery centers to expand our capabilities and drive market reach

Digital Innovation & Al Development: We continuously invest in digital innovation and AI to create advanced experiences in response to market demand

Go-To-Market Clarity: By streamlining our service architecture, we're establishing clarity that makes our capabilities easier to sell and easier to buy

Strategic & Disciplined M&A

Strategic Acquisitions: With a strong track record of identifying and integrating accretive opportunities, we focus on acquisitions that add real value to our business & strengthen our position in the market.
