

Business Transforms When Projects Perform™

Driving Project Success to Achieve Your Strategic Business Goals

Dramatically improve business outcomes with a holistic framework
for Portfolio, Program and Project Management.

RGP[®]
Dare to Work Differently™

Set Yourself Up for Success

No one launches an expensive, high-stakes initiative expecting it will fail. Yet most projects fall short of their goals, resulting in cost overruns, delayed benefits, operational risks and poor morale. RGP's holistic framework sets you up for success, so you can consistently achieve project goals, guided by a real-time view of performance, efficiency and impact based on:

- Real business objectives
- Highest return on investment
- Best use of constrained resources
- Lowest risk to delivery

Our Holistic Framework: 6 Key Dimensions

Strategic Portfolio Management

- Real-time visibility of project health across the portfolio via dashboards
- Thorough tracking of benefits against original business cases
- Predictable cadence of executive review and decision-making related to portfolio
- Effective governance and resource management processes

Adaptive Project Culture

- Continuously capture lessons learned related to project success/failure and execute changes in all impacted areas
- Ongoing analysis and reporting of performance vs. goals

Continuous Skills Enhancement

- Broad-based training on Project and Change Management to build internal improvement "muscles"
- Ongoing portfolio-wide assessment of new competencies required to optimize ROI from initiatives, with a continuous learning curriculum to close gaps

Aligned & Committed Leadership

- Clear stakeholder alignment around each business case and expected benefits from projects
- Engaged leaders and established responsibilities
- Continuous synchronization with enterprise strategic objectives

Advanced Project / Program Management

- Modern approaches to project and program management (e.g., Agile, digital PM, etc.)
- Dedicated project leaders leveraging best practices
- Robust risk management
- Dynamic project management and collaboration tools

Effective Change Management

- Structured change approach tailored to each specific project with established success metrics
- Holistic view of people impacts across current and planned projects
- Diligent tracking of actual adoption

Integrated, Cross-Functional Services to Drive Project Success

RGP helps you successfully execute mission-critical initiatives with a proven approach to optimize and continuously improve delivery at the project, program and strategic portfolio level.

About RGP

Founded in 1996, RGP is a management consulting and professional services staffing firm. Our experts help clients execute transformational initiatives across the enterprise. Today's project economy reflects our founding strategy – quickly align specialized resources for the work at hand with a premium placed on value, efficiency and ease of collaboration.

Based in Irvine, CA, with offices worldwide, our model enables top consulting talent to work differently, with radical flexibility and purpose – features unavailable in traditional consulting firms. This winning value proposition has enabled us to become the leading provider of agile consulting services. With 4,200 professionals on staff, we annually engage 2,100 clients globally, including 87% of the Fortune 100. (NASDAQ: RGP)
